PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience building and optimizing backend systems using Django, Flask, and REST API. Proficient in REST API development, relational and non-relational database design, authentication, role-based access control, and automation scripting. Demonstrated ability to write clean, reusable code and collaborate effectively in agile development environments.

TECHNICAL SKILLS

Languages	Python, SQL
Backend Frameworks	Django, Flask, FastAPI, REST API, Django REST Framework
Frontend	HTML5, CSS3, JavaScript, React.js, Bootstrap
Databases	PostgreSQL, MySQL, MongoDB, SQLite
Libraries	Pandas, NumPy, Matplotlib, Seaborn, SQLAlchemy
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook
Data & Analytics	Excel, Power BI, Tableau
Certifications	Software Developer Data Analysis

WORK EXPERIENCE

Software Engineer | Sagveek Technologies Pvt. Ltd., Pune — July 2025 - Present

As a Software Developer at Sagveek Technologies Pvt. Ltd., I design, develop, and maintain full-stack web applications using Python, Django, FastAPI, React.js and SQL, PostgreSQL databases.

- Building and testing backend APIs using Django / Flask / FastAPI.
- Writing clean, efficient, and reusable code for real-time applications.
- Working with MySQL/PostgreSQL/MongoDB for data storage, queries, and optimization.
- Assisting in the development of REST APIs and integrating them with frontend components.
- Debugging existing code, identifying issues, and helping improve performance.
- Creating automation scripts to streamline internal processes and data workflows.
- Collaborating with the development team using Git/GitHub for version control.

Python Developer Intern | Sagveek Technologies Pvt. Ltd., Pune — March 2025 - May 2025

Internship at Sagveek Technologies included developing and maintaining Python-based modules under the guidance of senior developers, and participating in daily standups, sprint planning, and code review sessions.

I collaborate with cross-functional teams throughout the software development lifecycle, from requirement analysis and development to testing, deployment, and production support. I also contribute to code reviews, debugging, performance optimization, and version control using Git and GitHub to ensure reliable and high-quality software delivery. I'm actively looking for opportunities where I can contribute to meaningful projects, expand my technical skills, and learn industry best practices.

PROJECTS

Bookstore E-Commerce Website | Django • Django REST Framework • HTML • CSS • JavaScript • Bootstrap —

- Built a Django-based e-commerce website with book catalog, product details, cart workflow, checkout flow, and order management.
- Implemented authentication, Django ORM models, admin management, and CRUD operations for books, categories, users, and orders.
- Created responsive Bootstrap pages with search/filter features and optimized database queries for a smoother user experience.

Library Management System | *Django • SQLite/MySQL • HTML • CSS • Bootstrap* —

- Developed a library management application to manage books, members, issue/return records, availability tracking, and overdue status.
- Designed normalized Django ORM models with validation for book inventory, member details, and transaction history.

Role-Based Authentication System | *Django • Django Auth • SQLite/MySQL • Bootstrap* —

- Implemented secure signup, login, logout, password hashing, and session-based authentication using Django's built-in auth system.
- Configured role-based access control (RBAC) for admin, staff, and user dashboards with protected routes and permission checks.
- Added form validation and authentication error handling to prevent unauthorized access to sensitive application pages.

Blog Management System | *Django • Django REST Framework • HTML • CSS • JavaScript • Bootstrap* —

- Developed a full-stack blog platform with CRUD operations for posts and comments, secure authentication, and RBAC.
- Modeled relational data in Django ORM with field-level validation, error handling, and clear entity relationships.
- Built a responsive Bootstrap UI focused on fast page loads and a smooth end-user experience.

Personal Portfolio Website | *Flask • HTML • CSS* —

- Built and deployed a responsive portfolio site using Flask, showcasing projects, technical skills, and professional experience.

EDUCATION

Master of Science in Statistics - 8.59 CGPA | Shivaji University, Kolhapur — 2023 - 2025

Bachelor of Science in Statistics - 9.72 CGPA | Shivaji University, Kolhapur — 2020 - 2023
